FEES FOR THIS PAPER TO DEPOSIT  
ACCOUNT NO. 23-0975

Sir:

In view of the following remarks, reconsideration of the rejections contained in the Office Action of May 3, 2005 is respectfully requested.

In the outstanding Office Action of May 3, 2005, the Examiner rejected pending claims 1-23 under the judicially-created doctrine of obviousness-type double patenting as being unpatentable over the claims of U.S. Patent 6,742,625 (the '625 patent). In particular, the Examiner asserted that the claims of the present application are not identical to the claims of the '625 patent, but are also not patentably distinct and are merely obvious variations in breadth and scope.

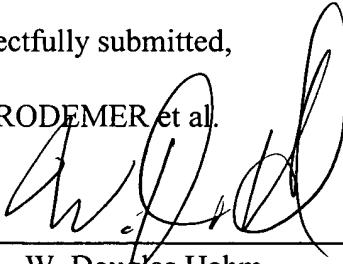

Although the Applicants do not acquiesce to the Examiner's position with regard to the claims of the present application, a Terminal Disclaimer has now been prepared and submitted herewith in order to address the double patenting rejections. As the Examiner acknowledged in the Office Action, a Terminal Disclaimer can be used to overcome a non-statutory double patenting rejection. Thus, in view of the submission of the Terminal Disclaimer, it is submitted that the Examiner's double patenting rejections of claims 1-23 have been overcome.

Furthermore, because the Examiner has not set forth any prior art rejection of the pending claims, it is submitted that claims 1-23 are now in condition for allowance.

In view of the above amendments and remarks, it is submitted that the present application is now in condition for allowance. However, if the Examiner should have any comments or suggestions to help speed the prosecution of this application, the Examiner is requested to contact the Applicant's undersigned representative.

Respectfully submitted,

Karl RODEMER et al.
